

Dear customer,

The following products of our product range are discontinued with immediate effect. In case of demands please send us your last order up to the date as mentioned below.

The reason for the discontinuation is a product upgrade, which has no effect on form, fit and function.

Change in detail

Discontinued product	Substitution product
The discontinued product does not have notches for the MICON 5 plunger. The snap disk in the short-travel keyswitch is not protected against excessive actuation. 	Notches for the MICON 5 plunger allow the actuating force to be absorbed by the MICON 5 housing in the event of excessive actuation. This protects the snap dome from high force effects and prevents possible breakage.
